EDUCATION

Vellore Institute of Technology, Bhopal University	Bhopal, India
Bachelor of Technology in Computer Science (AI & ML)	2024–2028

PROJECTS

NoteLift – Chrome Extension

Tech Stack: JavaScript (ES6), Chrome Storage API, Chrome Extensions API (Manifest V3)

- Built a Chrome extension that converts highlighted text from web pages and PDFs into module-wise revision notes
- Implemented local-only storage with explicit module management and one-click export to text files

InstaSave Navigator – Chrome Extension

Tech Stack: JavaScript (ES6), Chrome Extensions API (Manifest V3), DOM manipulation

- Built a Chrome extension for instant navigation to oldest saved Instagram posts using client-side scrolling
- Designed fully client-side solution with ultra-fast scrolling, infinite scroll detection, and one-click toolbar usage

Brainstormzz – AI-Powered Brainstorming Whiteboard

Tech Stack: React, HTML5 Canvas, Chrome Built-in AI (Gemini Nano)

- Built an AI-powered brainstorming tool with interactive HTML5 Canvas whiteboard and drag-and-drop nodes
- Deployed with 100% local AI processing; currently refining Chrome built-in Gemini Nano API integration

TECHNICAL SKILLS

Languages: Python, C, C++

Frameworks: React, Node.js, HTML5 Canvas

Libraries: NumPy, Pandas, Matplotlib, Tkinter

Tools: Git, VS Code, PyCharm, Google Colab, SolidWorks

Currently Learning: Data Structures & Algorithms, ML

TRAINING & COURSEWORK

Fundamentals in AI & ML	VIT Bhopal University
------------------------------------	-----------------------

- Completed foundational coursework covering core AI and machine learning concepts

Introduction to Data Science	Simplilearn
-------------------------------------	-------------

- Learned data analysis workflows and basic statistics

Insights on Computational Data Science	IU Indianapolis
---	-----------------

- Gained exposure to computational approaches in data science applications

100 Days of Code – Python Bootcamp (Angela Yu)	Python
---	--------

- Completed 35 days of hands-on Python programming and problem-solving

CLUBS & ACTIVITIES

AI Club	2024–Present
----------------	--------------

Event Management Team – Core Member

- Assisted in organizing AI-focused technical events and brainstorming sessions

GSoC VIT Bhopal Student Community	Nov 2025–Apr 2026
--	-------------------

Finance Team Member

- Managed budgets and fund allocation for community events to ensure smooth execution of activities

AVITAR Baja Team	2024–2025
-------------------------	-----------

Roll Cage Member

- Worked on roll cage design and body structure tasks; learned SolidWorks for engineering design changes
